## FF FRAME MOUNTING SYSTEM

Polisport's Frame Mounting System was developed to be safe, simple, reliable, efficient and easy-to-use. The double rabbit and click system has a very smooth action when mounting the child seat, sliding easily into the slots and requiring no further pressure than the weight of the seat. It only takes a light push of the holder safety button to release the child seat, making it really easy to remove and store your seat at the end of the day. The seats that feature this mounting system also have the ability to be moved backward and forward in 3 positions, according to the bicycle and child size.

### QUICK RELEASE FRAME HOLDER

Approved for GUPPY MAXI+, GROOVY, BUBBLY MAXI+ and BUBBLY MINI FF models

Fits frames from Ø28 to 40 mm. Green indicators appear when the seat is correctly assembled. All the screws remain built-in inside the holder, making the fitting much smoother. Requires an available length on the frame of 105 mm to be installed. Fits round and oval tubes, and was designed to accommodate the brake cable, preventing it from being pinched. Inside, a rubber pad will also prevent the frame from getting damaged. Tools included. To remove the seat, you only need to slightly push the holder button and simultaneously pull the seat up and backward. Meets all the safety standards EN 14344. Also sold as a spare part.

### STANDARD HOLDER

Approved for BILBY MAXI, BILBY JUNIOR, KOOLOH and JOY models

Fits frames from Ø28 to 40 mm. Requires only an available length of 80 mm to be installed. Inside the holder, a rubber pad protects the bicycle and allows the mounting system to adapt to frames of all different sizes. The rear metallic part of the holder has an opening to allow the brake cables to fit in without being pinched. Meets all the safety standards EN 14344. Sold as a spare part.

### FRONT HEAD TUBE HOLDER

Approved for GUPPY MINI, BUBBLY MINI+ and BILBY JUNIOR models

Fits frames from Ø22 to 40 mm. Requires only an available length of 35 mm to be installed. Inside the holder, a rubber pad protects the bicycle and allows the mounting system to adapt to frames of all different sizes. Mounting kit includes two mounting options: one for small head tubes (10 mm / Ø28-40 mm) and another for standard head tubes (35 mm / Ø22-40 mm). Mounting kit required for assembling included. Meets all the safety standards EN 14344. Sold as a spare part.

## RS PLUS RECLINING MOUNTING SYSTEM

This **reclining system** allows the cyclist to recline the seat in 2 positions up to 20°, without having to remove the child from the seat. This can be done with the greatest comfort and safety for both the child and the cyclist. The system has been developed so that it can be unlocked, reclined, and locked again, only by the adult user. The child will not be able to handle the system, thus preventing any eventual accident, guaranteeing the safety of the direct and indirect users.

The possibility of reclining a child seat for a bicycle is very important since the bicycle is increasingly seen as a reliable, sustainable, economic and, therefore, logical family mode of transportation.

## CFS CARRIER MOUNTING SYSTEM

Polisport's Carrier Mounting System was developed to take advantage of bikes already equipped with luggage carriers. The bottom of the seat is securely attached to the carrier, which is extremely important as it increases stability for the rider.

It also makes the assembling of the child seat to the luggage carrier very easy, since it doesn't require further use of tools – you just need to rotate the knob and easily release and install the Child Seat. This also means that it's really easy to commute or store the seat. For increased child and cyclist comfort, you can move the seat backward and forward on the luggage carrier length.

NOT OK

Not compatible frames / bicycles

### SLIM, WIDER CARRIER PLATE

Approved for  
GUPPY MAXI+, GROOVY and BUBBLY  
MAXI+ models

The slim design of the carrier plate also increased its performance. It will now fit a wider number of commuting bikes on the market, especially E-bikes, by increasing the range from 175 to 185 mm. Features a left and right mechanical system – making it even easier to install and release the seat (clamp – turn right; release – turn left). Fitting luggage tubes from Ø10 to 16 mm. No tools needed. Compatible with carriers conforming to ISO 11243 - 120 to 175 mm. Now also fitting wider carriers - 185 mm. The system meets all the safety standards EN 14344.

### STANDARD CARRIER PLATE

Approved for  
JOY, KOOLOH and BILBY models

Fitting luggage with 120 to 175 mm width. Fitting luggage tubes from Ø10 to 16 mm. No tools needed. Compatible with carriers conforming to ISO 11243. The system meets all the safety standards EN 14344.

### RMS RACK MOUNTING SYSTEM

Approved for  
KOOLOH model

Supplied with the child seat, requires fewer steps to complete the assembly. To attach the plate to the luggage carrier you can choose between the multiple fitting points available on the plate. This feature increases the compatibility with a wider range of bikes equipped with luggage carriers. Once the plate is firmly attached to the luggage carrier, the seat is installed or released with just a twist of a screw. When riding without the seat on, the plate can be used as a luggage carrier with the help of its straps. Maximum width – 160 mm. Compatible with carriers conforming to ISO 11243. The system meets all the safety standards EN 14344.

## SAFETY, COMFORT & DESIGN CHILD SEAT PERFORMANCE COMPONENTS

### ONE HAND BUCKLE

Groovy and Bubbly features an improved sturdy safety buckle that you can operate with just one hand – this way it's easier to buckle and unbuckle, an extra benefit for the all-day commuters. Nevertheless, due to its childproof design, the child will not be able to release it on their own. All Polisport child seats are designed to 'grow' with the child. That's why all our safety harnesses are adjustable. That's why all our safety harnesses are adjustable.

### HARNESS BUCKLE

Polisport designed its own harness buckles, to make sure that they are reliable, efficient and easy-to-use. In this option, the design of the buckle requires three buttons which have to be pushed simultaneously in order to unbuckle. All Polisport child seats are designed to 'grow' with the child. That's why all our safety harnesses are adjustable.

### QST QUICK SAFETY TURN

QST is a specially designed screw incorporated in a safety button that allows prompt adjustments on the positioning and assembly of the seat, while offering a totally safe and secure mounting. With QST you don't need to use any tools.

### ESS EASY SLIDE SYSTEM

On child seats equipped with this solution, it is possible to move the seat backward and forward without using any tools. Its simplicity makes it easier to adjust and move the seat while the child is seated. This means extra comfort for the child and cyclist.

## Handlebar With Support Roll

Some kids like to participate while riding with you on the bike. The Bobike handlebar lets them pretend they're steering too. And when they're exhausted, the support roll is there to catch them when they fall asleep. The handlebar with support roll fits Bobike ONE mini seats and does not interfere with the placement of a windscreen.

Ref. 8015300165

P.V.P. 26,50 €

## Rain Cover mini

Protect your Bobike safety seat against rain, snow or hail, with a rain cover that fits your Bobike ONE mini seat. The rain cover comes in a nice travel case, so it's really easy to store and carry with you.

Ref. 8015300044

P.V.P. 11,70 €

## A-Head Adaptor

With this bracket you can easily mount a Bobike safety seat on a bike with A-headset. An adjustable stem remains usable and the display or controller of an electric bike can also stay in place. The required installation space is only 4mm.

Ref. 8015300139

P.V.P. 14,50 €

new model

## Mini Combination Lock

Extra security and protection for your Bobike ONE mini seat. The Bobike lock you already know from the Bobike ONE maxi is now available in a mini version to provide additional security for your front safety seat.

Ref. 8015300205

P.V.P. 7,10 €

## Universal Bracket

This mounting bracket, is already included when you purchase a Bobike mini seat. If you want an additional bracket or need a replacement, this is the spare part you need. This bracket fits standard steering tubes Ø 22 to 32 mm and MTB bikes steering tubes: 1-1/8". Meets EN14344 safety standard. The measurements of the universal bracket are: 10 x 8 x 3,5 cm or 3,94 x 3,15 x 1,38" (W x D x H).

Ref. 8015300043

P.V.P. 17,50 €

# CLASSIC junior

## rear bicycle safety seat for frame mount

The Bobike Classic Junior can carry up to 35 kilograms. The seat is equipped with a lap belt so that your child cannot stand on the back of the bike. The seat also offers a convenient fold away bag bracket to offer you some additional storage and, when the seat is closed, you can use it as a multifunctional carrier. Suitable for children between 5 and 10 years old or with a body weight of maximum 35kg.

The Bobike Classic Junior comes with mounting hardware for attachment to the seat tube. This attachment fits round tubes with a diameter of 28-50mm.

Mounting bracket for bikes without a carrier. (seatube)  
For round tubes Ø28-50mm.

**ALUMNA**

**HOT & COLD**

4 HOURS THERMAL

At an outside temperature of 23°C, the temperature of the liquid inside the bottle will go from 5°C to 15°C difference.

For those hot days there is nothing better than enjoying a cold drink. You can prepare it at home and drink it during your ride. Up to 4h pedaling or doing any other activity. There's a soft tip so you can control the water flow and a dust cap, to make sure you drink as clean as possible. The exterior is clear and there's foam with an aluminum membrane to make the temperature isolation go from the inside to the outside. With a wide opening, it makes it more convenient to insert some ice cube's if necessary. There are also multiple colors to choose from.

**MATERIAL**  
Food-grade polyethylene, BPA free.

**STANDARDS**  
Complies with food contact regulations: Regulation 10/2011.

3 HOURS THERMAL

This bottle is a proof that simplicity works. To keep the temperature for 3 to 4 hours this is still one of the best options. With the same inspiration of the alumna but with some minor changes, for it to have a more competitive price range. The exterior is opaque and there's foam making the isolation go from the inside to the outside. There's a soft cap, to make sure you drink as clean as possible. With a wide opening, it makes it more convenient to insert some ice cube's if necessary.

**MATERIAL**  
Food-grade polyethylene, BPA free.

**STANDARDS**  
Complies with food contact regulations: Regulation 10/2011.

## BOTTLE CAGE PRO

THE NEW PRO BOTTLE CAGE WITH EASY ACCESS,  
EVEN FROM THE SIDES

Polisport's new Bottle Cage Pro is extremely light, 35g. The clever geometry of the bottle cage allows you to quickly remove the bottle from a variety of different angles. This is a huge benefit, while you are riding, have any time to waste, and you need to focus on the road. The bottle cage is also suitable for small bikes and sloping frames that do not offer much space for a water-bottle. Screws included. You can also match the new Bottle Cage Pro with your bike color – say goodbye to those dark cages and pimp your bike!

35g/0,08lb

- ■ 8645900001 black/grey

- ■ 8645900006 black/orange KTM

Master box: 84 un / 588 x 388 x 300 mm

P.V.P. 7,00 €

## TOOL BOTTLE

THE BEST WAY TO TRANSPORT YOUR CYCLING ESSENTIALS

With the Polisport New Tool Bottle, you can easily fit a spare tube, some tyre levers, a multi-tool and some puncture patches in the 600ml hollow of the Polisport Tool Bottle, with a little bit of room to spare for any other tiny tool preferences you may have. There's definitely enough room in there for the ride essentials even if you need to store some other objects such as your keys or some coffee cash! This is a really good alternative to the saddle-bag because you will benefit from a wider opening with easier access than that of your normal saddle-bag and avoid some unstrapping as well. And of course, the certainty that it's also waterproof so you won't ever have experience again the necessity to suddenly dry the contents of a saddle-bag after a five-hour wheel-spraying soaking. Our top benefit is that you can still use it for transport water in it since the material complies with food contact regulation.

ERGONOMIC SHAPE  
Bottle cage compatible.  
Easier to grab

NEW MODEL

HANDY IDEA

Perfect storage unit for riders who don't like **stuffing** their jersey or jacket with pumps, tubes, spare tyres, levers and multi-tools.

Waterproof.
